

If the person has any of the following symptoms, immediately call 9-11.

Difficulty breathing, chest pain, new confusion, difficulty concentrating, bluish lips or face.

Assess for any COVID-19 like symptoms

Signs and Symptoms:

- Fever of 100.4 or higher
- Loss of taste or smell
- Cough
- Shortness of breath
- Headache, muscle ache
- Runny nose/congestion
- Nausea/vomiting
- Diarrhea

Does this person have one or more of the COVID-19 symptoms listed above?

Yes

Are these symptoms of a new or worsening chronic condition, or is it accompanied by a new symptom?

Yes

1. Place a surgical mask on the student/staff if safe to do so.
2. Assist the student/staff to an isolation area.

All staff assisting ill individuals should wear appropriate COVID-19 PPE and perform frequent hand hygiene and disinfect all environmental surfaces once the person leaves the area.

No

No

1. Follow routine illness care.
2. Return to class if appropriate. Alert teacher to monitor student with heightened awareness.
3. Record visit in the usual manner.

Follow up for students/staff exhibiting symptoms:

1. Call parents and send home. Send staff home.
2. If fever persists after 48 hours without the use of fever reducing medication, or signs and symptoms are still present, the individual must be evaluated by a medical provider before returning to school.
3. Follow COVID-19 Return to School/Work Guidance.
